# INTRODUCTORY.

**CENSUS, 43,463.**

In bringing forth the FIFTH ANNUAL DIRECTORY of Atlanta, we are aware that we have not a perfect work, but we do maintain that it is far superior to any former issue.

There are in this volume 2,681 *more names* than any previous directory of the city ever contained.

The names herein number 14,568; of these, 10,499 are whites and 4,069 are colored.

With a more circumscribed territory than heretofore, the experienced men who take the census in connection with the directory, make a showing that is beyond dispute. The returns foot up **43,463** total, for the whole district comprised in the directory. Of these, 26,882 are white and 16,581 are colored—62 per cent. more whites than colored; this is a gain of five per cent. more whites than colored in one year.

We thank the progressive business men for their cooperation in our efforts to place Atlanta's Directory in the front rank of publications of the kind in the South.

THE FREE BUSINESS DIRECTORY of the "Gate City," with which the issue of this volume is identical, will go to many business and commercial points, where a colated, classified index will be appreciated, and will *last*, and undoubtedly be attended with happy results.

We will seek, in the future, to do what we have in the past—improve, and attain the highest standard.

To Mr. H. H. Dickson thanks are due for the neat typographical and stereotype work.

The public's most obedient,

SHOLES & CO.

# GUIDE

## To Streets and Avenues in Atlanta and Suburbs.

### EXPLANATIONS.

Reference to the "Guide" will show the streets, avenues, etc., in alphabetical order, with the intersecting streets added, and, so far as practicable, corner numbers are given, so if one wishes to find, say No. 41 Whitehall, it will be seen that No. 21 is at corner of Alabama, and No. 63 corner of Hunter; hence, the number sought is between those streets. Many corners are destitute of numbers, which defect should be remedied.

The Union depot is the central point of the city.

The following are the central streets from which others are numbered, viz: Decatur and Marietta running east and west, and Peachtree, West Peachtree and Whitehall running north and South.

The system of numbering is a very defective one, and difficult to understand. Odd numbers are on the right, and even numbers on the left in commencing each street.

Ward boundaries, and halls and public buildings, may be found immediately following the "Guide."

The commissioners are appointed by the Governor, with the consent of the senate. Its duties are to fix the local rates to be charged by the various railroads in the State, on freight and passengers, and to furnish rules and regulations to govern the roads. Its first action was to fix a standard tariff for all the roads, to take effect May 1st, 1881, but upon proper showing by any road that such standard was too low, the Commission increased the standard rates by allowing an additional per centage. The passenger rates were five and six cents per mile, on nearly every road in the State. By order of the commission, the fares on all the long or important roads was reduced on February 1st, 1881, to three (3) cents a mile. This board is not an advisory, but a mandatory one, whose powers are to regulate railroads and railroad rates. The present incumbents are appointed for six, four and two years, respectively, from October, 1879, but their successors' terms of office will be for six years each. ATLANTA, GA.

A Standard Institution.

THE BUSINESS WORLD IN MINIATURE.

Actual Business! Students on 'Change!

*The Best Mode of Instruction ever adopted for the PRACTICAL EDUCATION of Young Men, Boys, and Men of Middle Age.*

## SYSTEM OF TEACHING.

The School is a completely organized community, with its necessary adjuncts, Banking Houses, Insurance, Transportation and other Agencies, in which each student acts his part as clerk, book-keeper, merchant, banker, etc.

Merchants rent their places of business, procure license, deposit their money in bank, buy, sell, collect, give and take notes of hand, raise money by having notes discounted, make and receive consignments, and keep their own accounts, recording each transaction as it takes place.

Surplus funds are disposed of in the usual way, by investment in stocks.

The community is governed by strict laws, in close conformity with those of the business world outside.

The Merchant, as intimated, cannot engage in business until he has obtained license from the government; must use his stamps, state his terms of sale, collect and pay in accordance with law or usage, protect his maturing paper; or submit to the usual penalties, perhaps to the loss of credit and standing in the community. Funds of defaulters, absent or deceased members, in the hands of others, cannot be reached except by legal process.

Absent members may award powers of attorney for the settlement of their affairs, while the estates of deceased members are placed in the hands of administrators.

## BRANCHES TAUGHT.

Single and Double Entry Book-Keeping, Plain and Ornamental Penmanship, Commercial Arithmetic, Merchandising, Political Economy, Actual Business, Business Correspondence, Mercantile Law, Insurance, Banking, etc.

**PRACTICAL BOOK-KEEPING** with the students as an organized business community, transacting business, and recording each transaction as it occurs. Here are in operation Wholesale and Retail Houses, Transportation, Insurance and Banking Houses. The Student, as a merchant or clerk, makes out his bills, issues his notes and checks, procures his policies of insurance, and deposits his money precisely as the same things are done in the outside world; all the various printed forms of bills, notes, dray tickets, bills of lading, checks, stamps, etc., being supplied in his outfit.

The following classes of business are represented; Buying and Selling on Commission, Flour Business, Produce, Provisions, Dry Goods, Grocery Houses, Etc. Merchants conduct business singly, in partnership and as joint stock companies.

**TIME OF ENTERING.**—There are no terms of divisions. Students can enter any week day during the year with equal advantages. There are no examinations at time of commencing.

**PREPARATORY QUALIFICATIONS**—A knowledge of the ordinary English branches constitutes a sufficient preparation for entering the College, and any special deficiencies in these, if not too deep rooted, can be remedied in our course.

**TIME REQUIRED.**—The time necessary to complete the course is from twelve to sixteen weeks, varying according to the ability and application of the student. \$110.00 to \$115.00 will cover Tuition, Stationery, Board, etc., for three months.
